Ranch Style Bungalow with 2-Car Attached Garage. This ranch style bungalow has a covered veranda that runs the full length of the house, and then wraps around the side to have access through the dining room garden doors. The craftsman style posts and stone trim contribute to the aesthetics of this design. Lots of room in this garage for storage and a workshop area. Access the basement directly from the garage or inside. There is a half bath on the garage level just before heading up the landing through the laundry room. The kitchen, nook and living room are all vaulted. An island with seating is between the kitchen and nook. The living room and nook are both bayed out for additional space. There are two bedrooms on this level with the master having its own ensuite and walk-in-closet. A separate deck has access from double french doors in the master suite. Mechanical room is downstairs.
