Bungalow with Triple Car Garage: This three bedroom bungalow has lots of room. The main foyer with its double doors lead you into the openness of this plan. The first thing that catches your eyes is the 2-sided fireplace against the master bedroom wall. The rounded corners go all the way up to the vaulted ceiling. The master bedroom has four windows. The 4-piece ensuite has a corner tub and shower. The large walk-in closet has lots of room. The other two bedrooms are larger than most bedrooms in a house this size. The dining room is open to the kitchen and great room. Access onto the covered deck through double garden doors. The kitchen has a lunch counter and a built-in pantry. The laundry room is conveniently located off the kitchen and garage. The open staircase leads you to the undeveloped basement (which you can design later to meet your needs). This is every mans dreams....a triple car garage with a workshop area. A plan that has great curb appeal.
