Yes (3-Car with 10'x8' Doors)

Yes

This Executive Bungalow has it all. Great curb appeal and a well thought out design. The high covered front entry has an arched window above the door and the foyer has a 13 foot ceiling. Double French doors off the foyer lead to the den which features a large window with a transom. Continue past the open stairwell and you are in the great room, kitchen and dining rooms. The large kitchen features a walk-in pantry, a unique island with a double sink and dishwasher built in. A lunch bar has also been incorporated into the island. There is a china cabinet build-out. Large windows on this side of the home will allow lots of natural lighting. A double garden door leads out to the covered section of the rear deck. There is a corner gas fireplace in the great room. The nice-sized master bedroom also has a double garden door to the rear deck. The lady of the house will love this ensuite with a 6 ft. soaker tub, a 36"x48" shower, and a make-up counter. Check out the size of the walk-in closet. The main bath is located by the entrance to the 3-car garage. No problem parking in this garage with the 10'x8' overhead doors. The laundry room is spacious with a large window, which makes it nice and bright. It has a laundry sink with base and upper cabinets for extra storage. There are two closets in the laundry room for storing seasonal clothing. The lower level has been developed with two large bedrooms, both with big closets, and a 4 piece bath is located between them. If you need to prepare a meal or do some canning, there is also a small kitchen with a cold storage room. The mechanical room can also serve as a storage room. The family/rec room has lots of room. Move into this nicely designed plan and call it your "Home."
