1537 Sq. Ft. Bungalow. This plan is perfect for town or the farm with its country-style look. The front veranda is covered and provides protection from the sun and rain as you enjoy sitting outside. The decorative columns give this plan great curb appeal. From the front foyer you enter into the dining room area, which is open to the kitchen and great room as well. This open-space concept makes this area look much larger. Enjoy the gas fireplace in the corner of the great room on those cooler nights. The great room is bayed out for additional space and light. The U-shaped kitchen has a lunch bar for additional seating. The optional entrance from the front veranda is into a spacious mud room, right across from the main floor laundry, or enter from the back of the house into the same area. A great place to store those chore clothes. The master bedroom has a 3-piece ensuite and a walk-in closet. An additional bedroom is available on this floor as well. The basement is undeveloped, so more living space can be accommodated here if needed.
