1690 Sq. Ft. Bungalow Plan. This Bungalow Plan would be great in town, in the country, or at the lake. All rooms are a nice size and the design is simple to build. Enter from the covered deck into the front entry with laundry area and closet. Also just inside is a large walk-in pantry just off the kitchen. The U-shaped kitchen has plenty of cabinet and counter space. The dining room has double garden doors leading onto the front covered deck. The living room has a corner wood stove for those cooler evenings. The master suite has his and hers closets and a 3-piece ensuite. There is another bedroom on this level, along with a flex room and another 3-piece bathroom. The utility room is behind the front entry and has the access to the crawl space underneath.
