Ranch Style Bungalow with 2-Car Attached Garage. A well laid out floor plan that has everything you need on the main floor. Could be designed as a barrier free home as well with 3' doors into all rooms and minimal stairs. It has 3 large bedrooms with the master suite having its own 4-piece ensuite and walk-in closet. The kitchen and dining room are open to the great room. A corner gas fireplace is beside the french doors leading to the huge covered patio in the rear. The 2-car attached garage has a rear and side man door with the main vehicle entrance in the rear. The mechanical is located in the garage as well. A laundry and half bath are just inside the entrance from the garage. You will also enjoy spending evenings on the covered veranda in the front of the house. A very practical design.
