Ranch Style Bungalow with 3-Car Oversized Garage (Slab on Grade). A well laid out home with everything that a country home owner would want. This plan is built with a slab on a 4' concrete foundation, so absolutely no stairs. The covered front and rear patios feature craftsman style posts. An oversized garage with three 10'x8' doors leaves lots of room for a workshop area. There is a man door in the front and in the rear off the patio. The mud room is off the laundry room which includes a two-piece bath. Also enter the kitchen via the large walk through pantry. The kitchen, with a working island and lunch counter, is open to the dining room and great room. Access the covered rear patio from the dining room through a French door. There is a storage room just off the front foyer. A three-piece bath is located next to the two bedrooms. The master bedroom features a large walk-in closet and a five-piece ensuite which includes a 48" walk-in shower and corner jetted tub. This home plan has everything on one level!
