Bungalow with 2-Car Angled Garage. This beautiful bungalow has a high pitched roof, making it look very grand. The stone trim and pillars add to the aesthetics. Enter from the large concrete patio into the foyer, which is dropped. Up a couple of stairs takes you into the open concept kitchen, dining and great room. A working island with lunch counter borders the kitchen. The great room has a treyed ceiling. Sliding doors between the dining room and great room lead to the large rear deck, which is partially covered. Two bedrooms are tucked away to the right of the great room area, both with large closets. A 5-piece bathroom is shared by both bedrooms. The 2-car angled garage is attached on the left with plenty of closet space. Enter from the garage into the mudroom. The laundry room is off the mudroom and is very roomy. Also just off the mudroom, is the office. Plenty of room in this 1851 square foot bungalow. Develop the basement for more bedrooms, or maybe that man cave you've been wanting.
