It can be accessed from the dining room, the master bedroom or the front foyer. The main living area is open concept with a full pantry in the kitchen, and a gas fireplace shared by the dining and great rooms. The laundry is located just inside the garage entrance, across from the storage space. Access to the crawl space is from the storage room. An office, which could become a third bedroom if needed, is right beside the storage room. There are two bedrooms on this floor, the master having its own ensuite, but both having walk-in closets. There is a 2-car side attached garage, and the roof over the deck is held up by posts surrounding the house, giving it that ranch or country style feel.
