Bungalow with 2-Car Side Garage. This Bungalow has everything you need on the main floor. Enter from the attached 2-car garage and there is a coat closet immediately to your left, with the laundry room immediately to your right, or enter from the front covered veranda into the foyer, which leads you to the dining room and great room. The ceiling in this area is vaulted and there is a gas fireplace centered between the two rooms to enjoy on those colder evenings. A garden door leads from the dining room to the large rear deck. Double doors lead into the kitchen, which has a walk-in pantry and lots of counter space. Down the hall is the master bedroom, which has a 4-piece ensuite and large walk-in closet. A spare room is across the hall, as well as an office and 3-piece bathroom. The garage has lots of room at the rear for a workshop area, and a man door at the rear. The basement is undeveloped except for the mechanical room, and could be designed to suit whatever you need.
