The front entry takes you into the great room, which has a wood stove centered on the master bedroom wall. There are vaulted ceilings over the great room, kitchen, and dining room, making this space look even larger. The kitchen has a large corner pantry and centre island with additional seating. Double garden doors just off the dining room take you to the rear patio. The master bedroom has its own large walk-in closet and 4-piece ensuite. Down the hallway from the kitchen is another bedroom and an office, which share a 3-piece bathroom. Laundry is accommodated across from the bedroom, and there is a large storage room. The mechanical room is inside the garage, as well as another storage room. The garage has lots of room for a workshop area.
