Special Ceilings: Vaulted Kitchen, Dining & Living Rm
Fireplace: No
Deck(s): Front (Covered)
Veranda: No
Attached Garage: No
Finished Basement Plan: Yes

Bungalow Style Cabin Plan with Walkout. A great bungalow cabin plan with a walkout basement. With 1296 square feet on both floors, there is lots of living space in this design. The kitchen, dining room and living room are vaulted. There is a side entrance with a deck running the full length of the side right around to the front partially covered deck, which is also vaulted. Double garden doors lead from the dining room to the front deck as well. Lots of windows in the front gives you a great view from any room. The hallway coming in from the side entrance is extra wide so plenty of room for storage or coat hangers. There are two bedrooms in the rear, a 3-piece bath, and the master has its own 3-piece ensuite, plus wall-to-wall closets. Downstairs are two more bedrooms, a 3-piece bath, the mechanical room, and a large family room. Lots of windows down here as well as double doors leading to the outside patio, giving you a nice bright daylight basement.
