ICF Bungalow Plan with Walkout & 2-Car Port. This plan is designed with ICF from the foundation to the roof. From the front covered veranda, you enter into the foyer area which leads to a vaulted great room. To your left is the kitchen and dining room. Patio doors from this area lead to a large deck, which is also accessible from the car port. In from the car port is a large mud room and laundry room. The master bedroom is on the right side of the design with its own walk-in-closet and 3-piece ensuite. This bedroom has access to its own deck area through double french doors. Down the stairs, the basement is designed as a walkout with a huge partially covered patio area. If you need more bedrooms, the basement is currently undeveloped so there are lots of possibilities here.
