2-Storey Cabin Plan with 2-Car Garage. Enjoy this 2-storey cabin plan where the main living area is on the second floor so you can get a great view of the lake or mountains. There are two nice bedrooms that share the main 3-piece bath through sliding pocket doors. They are accompanied by a laundry room right next to them. The living room, dining room, and kitchen are all one open concept. Sliding patio doors lead to the large 28'x12' deck to enjoy the sunshine. There is also a smaller deck with the side entrance. A 2-car garage at the rear also has a ground level bathroom so you don't have to run upstairs when spending time on the waterfront. It has lots of room to store watertoys, ATV's, plus your vehicle. Enter the garage through man doors from either the front or rear. The mechanical room is also on this level. Enjoy the patio area under the deck above in rainy weather.
