 (Other Foundations Available)
 Special Ceilings: Partial Vault Second Floor
 Fireplace: No
 Deck(s): Front (Second Floor)
 Veranda: No
 Attached Garage: Yes (2-Car with 10'x8' Doors)

2-Storey Cabin Plan or Carriage House. This 2-Storey Plan would be great as a cabin at the lake or a carriage house. With 864 Sq. Ft. of living space upstairs and a 2-car garage below, it is an easy build. There is lots of room in the garage for a workshop area. The utility room is situated here. Upstairs is a 2-bedroom design with attic storage. The U-shaped kitchen has room for all appliances and is open to the dining and living rooms. A 3-piece bath plus a stackable washer/dryer is placed on the same side as the bedrooms. The ceilings on the front slope partially towards the rear. Sliding patio doors from the living room access the small deck on the front. A great looking feasible design.
