2 Storey 4-Plex. This basic design is great looking and easy to build. It has a covered front entry which takes you into the open concept layout of the living room, dining room, and kitchen. There is also a rear entry right beside the laundry area. There is a full pantry plus an island with lunch bar for additional eating space. The utility room is on the main floor, plus there is storage under the stairs. Upstairs you will find a nice sized master bedroom with its own walk-in closet and ensuite, plus 2 more bedrooms. A full 3-piece bathroom is centrally located, and the closet on this level is roughed in for laundry as well. This plan is also available in a 6-Plex, 8-Plex, or could be modified for any number of units, really.
