Narrow Lot Bi-Level. This 888 sq. ft. narrow lot plan is perfect for that starter home. This plan makes this home cost effective to build yet giving it a great look. The covered front entry is dropped keeping the front steps to a minimum. The L-shaped kitchen with an island is open to the great room and nook. The vaulted ceiling makes these rooms feel much larger. The double garden doors lead you to the deck overlooking the rear yard. The lower level has not been developed so you can design it the way you would like. Because it's a Bi-Level, the large windows in the lower level allow more natural lighting. This plan will look good in any setting.
