1530 Sq. Ft. Per Side Duplex with 2-Car Attached Garage. With the front covered veranda, craftsman style posts, and false gables, this plan has a country style. A double attached garage makes this a great duplex. The false gables allow for additional lighting in the kitchen, dining, and living room areas, which have a vaulted ceiling. The kitchen has a corner walk-in pantry and a large angled island. The living room has a fireplace for those cooler evenings or rainy days. There are two bedrooms in each unit, each with their own walk-in closet. The master bedroom also has a 4-piece ensuite. A large mudroom with a washer/dryer and plenty of closet space is right off the garage or the rear entrance. The crawl space access is in the mechanical room. A great looking duplex.
